Career Objective: to obtain a science teacher position in a secondary school with the opportunity to coach cheerleading or track.

Education: Masters degree in Curriculum and Instruction South Dakota State University (2007)
Bach. Of Science South Dakota State University (1990)
Current South Dakota Teaching Certificate (updated 2005)

Experience: Science Teacher Chester Area School (1991—Current)

Use current strategies and theories including cooperative learning to instruct high school students in the areas of physics, chemistry, advanced biology, biology, and physical science.

Outstanding reputation for communication skills among students, parents, and administration.

Confidence in using tablet pc and webct to assign and submit student work. Also very capable of using the SmartBoard technology.

Cheerleading Coach Chester Area School (1991—current)

Instructed cheerleaders in the proper techniques to become successful cheerleaders and created activities and spirit items to raise school spirit.

Assistant Track Coach Chester Area School (1991— current)

Trained athletes with the skills needed to become successful long, triple, and high jumpers. I also help with training athletes in sprints and relays.

State Champion in Girls Track (1999, 2000, 2001)

Substitute Teacher (1990—1991)

Taught students various subject matters in several school districts using the lesson plans provided by the regular classroom teacher.

Affiliations: Member of the National Science Teachers Association
